SUMMARY OF THE REASONS FOR DECISION:

The DVD entitled *Black And White* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years.

This classification is due to the manner in which the publication deals with matters of sex and violence.

The publication is a version of a video recording previously classified by the Classification Office. The video recording entitled *Black And White* (publication reference no. 2123) was classified as objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years. This classification decision was registered on 20 December 2000. The version of the feature on the DVD has been verified as being substantially the same as the video version.

Along with the feature, the DVD contains a number of additional moving image and still components. Some of these components contain depictions of violence not included

in the feature. However, the manner in which matters of violence are treated within the extra components is congruent with the depictions within the feature, and therefore the publication does not warrant a more restrictive classification than that given to the video version of *Black And White*.
